PROFILE

A entry-level professional with a strong academic background and a willingness to learn new skills. Good at communication, basic problem-solving, and working with a positive attitude. Looking for an entry-level role to gain practical experience and grow professionally.

EDUCATION

Rathinam Technical Campus, Anna University

Bachelor of Engineering (B.E.), Computer Science and Engineering

- Currently pursuing 3rd Year
- CGPA: 8.0

VIDHYA VIKAS MATRIC HIGHER SECONDARY SCHOOL

- SSLC (State Board): 100%
- HSC – Computer Science (State Board): 84.5%

TECHNICAL SKILLS

- Java (OOP Concepts, Collections, Exception Handling)
- Spring Boot (REST APIs, Spring Security, JPA)
- MySQL (Joins, Database Design)
- Excel (Pivot Tables, Formulas, Data Analysis)
- Tools & Technologies (Git, GitHub)
- Power BI (Dashboards, Data Visualization, Reports)

PROJECTS

Personal Finance Tracker (Full-Stack Web App)

Developed a full-stack personal finance management application with a React (Vite, Tailwind CSS) frontend and Java Spring Boot backend. Implemented secure REST APIs with JWT authentication for expense and budget management. Used MySQL with JPA for data storage and integrated Recharts to display interactive financial insights and trends.

Tech Stack: React, Spring Boot (Java), MySQL.

Supermarket Sales Dashboard

Sales Dashboard (Excel Project) Created an interactive dashboard to analyze sales, revenue, and customer trends. Used pivot tables, charts, and Excel functions to visualize data and derive insights.

Tech Stack: Microsoft Excel (Pivot Tables, Charts, Functions, Data Visualization)

INTERNSHIP

Full Stack Web Development Internship at Mechpro Technologies

Completed a Full Stack Web Development internship at Mechpro Technologies, gaining hands-on experience in building web applications. Worked on frontend and backend integration, developed responsive interfaces, and understood real-world development workflows. Strengthened skills in problem-solving, teamwork, and applying technical knowledge to practical projects in a professional environment.

STRENGTHS

- Teamwork (Collaboration, Coordination, Supportiveness)
- Time Management (Prioritization, Task Planning)
- Leadership (Decision Making, Responsibility, Initiative)
- Effective Communication (Presentation Skills)

CERTIFICATION

Power BI Workshop

Gained hands-on experience in building interactive AI-powered dashboards and enhancing data visualization and analytical reporting skills.

DataCamp - Associate Data Analyst in SQL

Completed structured SQL training focused on querying, data manipulation, and analytical problem-solving.

AWS Academy Machine Learning – Certification Training

AWS Machine Learning Foundations (AWS Academy, 20 Hours, Machine Learning Basics)
