CAREER OBJECTIVE

Artificial Intelligence and Data Science student with practical experience in software development, machine learning, and cybersecurity through projects in financial analytics and threat intelligence. Seeking an opportunity to showcase my skills, contribute to impactful solutions, and grow as a technology professional.

EDUCATION

B.Tech -Artificial Intelligence and Datascience

Rathinam technical campus

2024 – Pursuing | Coimbatore

Cgpa -8.35

Unique Public School

2023 – 2024 | Ooty

hslc - 70%

Sslc - 100%

SKILLS

Programming Languages

Java , Python.

Cloud

Amazon Web Services,cloud computing.

Cybersecurity

Network Security, Vulnerability Assessment,Security Monitoring,Man in Middle Attack.

AI & Machine learning

Data Analysis, Data Preprocessing, Classification,Predictive Analytics.

Data base

Postgres,firebase

Operating System

Macos, Linux

LANGUAGES

Tamil

English

Kannada

PROJECTS

AI-Powered Honeypot Threat Intelligence System

Developed a cybersecurity solution that deploys a Honeypot server to capture real-world attack behavior and applies Machine Learning for analysis. Captures attacker activities such as login attempts, commands, and file access Uses ML to identify patterns and generate threat insights Transforms raw logs into human-readable intelligence Tech: Python | Machine Learning | Cybersecurity

Smart Expense Tracker

Designed and developed a personal finance platform with offline-first capabilities and seamless cross-device synchronization. Built an intelligent transaction analysis system that automatically identifies and categorizes expenses from bank notifications. Implemented real-time financial tracking with automated spending insights, anomaly detection, and budget monitoring to help users manage and optimize their finances effectively.

WORKSHOP-INTERNSHIP

IDE BOOTCAMP 2024

Conducted by AICTE

Gained hands-on experience in Innovation, Design Thinking, and Entrepreneurship.

- Learned to identify real-world problems, develop creative solutions, and present prototype ideas effectively.
- Enhanced teamwork, critical thinking, and problem-solving skills through interactive sessions and activities.

CERTIFICATES

- Aws Certified Cloud Practitioner- AWS
- Cloud computing - Nptel
- Google Certification Of Cybersecurity- Coursera
- Web Technology -Internshala

SOFT SKILLS

Soft Skills

- Good communication
- Decision Making
- Leader ship
